## Press release

### LYYN and APAC Security signs Asia/Pacific distribution agreement

LYYN and APAC Security has signed an Agreement for distribution of LYYN's products in Asia/Pacific. The agreement specifically targets the market segment for security but also Sub Sea which among all includes commercial diving. With this partnership LYYN will be able to access the market via APAC's existing sales channels.

"We released our first product, LYYN T38, in November last year. This has been well received by the market, especially within the submarine and security technology areas. Since then we have recruited over 20 resellers throughout the world, and several more are in the queue. To be able to support our markets in the best possible way LYYN will appoint regional distribution partners globally. We are extremely pleased to join forces with APAC to support the Asia/Pacific markets." says LYYN's MD Andreas Ekengren. " "

"I am very excited since LYYN's products match our existing portfolio of security products" declares APAC's MD Carl Lundberg. "In addition I enjoy working with entrepreneurs like the LYYN management. Andreas' and his team's ambitious targets suits us very well – we are committed to make this partnership successful"

#### About LYYN

LYYN is a technology development company working with image enhancement for improving visibility in different industries. Behind the company's technology lies many years of research in the human vision system and image technologies. LYYN offers products and solutions based on a technical platform, V.E.T., Visibility Enhancement Technology. The platform works with digital still images and video from common color cameras, in real time, but also in post processing of stored material. V.E.T. improves visibility in for instance fog, haze, snow, rain, dust, darkness, etc. as well as in Sub Sea and medical applications. #### About APAC Security

APAC's main purpose is to provide the Asia/Pacific market with high quality security products like the LYYN V.E.T technology. The majority of APAC's business derives from government security. APAC's principals can be found in UK, Sweden, USA and Singapore. APAC serves the Australian market directly while using a distribution network in the rest of the region.
